

THE HOUSE OF GRATIANI

A Companion Guide to the Royal Family of Marvidinia

Royals of Marvidinia — Kellie Baker Books

King Maximo of Marvidinia

Sovereign of the Kingdom of Marvidinia · Patriarch of the House of Gratiani

A man of quiet authority and long vision, he has guided his family and his kingdom through crisis with equal measures of patience and steel.

Queen Sophia of Marvidinia

Wife to Maximo · Mother of four

Elegant, perceptive, and never without a plan of her own.

King Marcus

Eldest son of Maximo and Sophia · Heir to the throne

Steady, principled, and deeply loyal to those he loves.

Juliana Gratiani

Crown Princess of Marvidinia · Marcus's wife

A woman who arrived in Marvidinia under extraordinary circumstances. Art scholar, survivor, and the newest member of the House of Gratiani.

Prince Fineas "Fin" Gratiani

Second son of Maximo and Sophia

Quiet, watchful, and operating in shadows most people don't know exist.

Prince Renaldo "Ren" Gratiani

Third son of Maximo and Sophia · Fin's twin · Naval officer

Navigates life with the same ease he navigates the sea — and considerably more charm than his brother.

Princess Francesca "Chess" Gratiani

Youngest child of Maximo and Sophia

Precise, resourceful, and entirely aware of everything happening in any room she enters.

Niccolò "Nicco" Devinero

Cancelliere di Stato · Chess's fiancé · Marcus's oldest friend

Orphaned as a child and brought into the household by King Maximo, Nicco grew up alongside the royal children as one of their own. He would give his life for any member of this family — a fact they are all aware of, including him.

Dowager Queen Margareta

Maximo's mother

The family's resident authority on everything. She has been paying attention longer than anyone else in the room, and it shows.

Leonora "Leo" Rossi

Fin's partner · Investigative journalist

Working with Fin to investigate corruption within the Marvidinian state. “The Wall” is her system for managing information and linking investigative clues and financial transactions via string, sticky notes, flags, documents, and photos, all pinned and taped to the actual wall of the office.
